Classes run on Saturdays however we can accommodate days in the week, minimum number of 2 persons per class. So if you want a great day out and learn a new craft, get in touch.

New arrivals

We have had 3 new baby crias arrive over the summer months.

Firstly, Storm gave birth to a beautiful, chocolate brown, male cria, who we have named Comet, he arrived on the 7th August. Again Storm waited till we were out at a show, I think she likes to give birth in private! It was a lovely surprise when we arrived home, she'd carried 11 months to the day, the usual gestation period is eleven and a half months.

Not wanting to be left out the following morning Fern decided to deliver a gorgeous white female cria who we named Charity.

Last but not least, Niamh gave birth to a beautiful light fawn, little girl, who we have named Clover. Niamh carried her cria for a year and 13 days, she certainly wasn't in a hurry!

At the beginning of April, Haratio our first Shetland Lamb arrived and on the 11th of August we bought 3 handsome Gotland sheep. These are a native breed from Sweden, with beautiful grey fleeces and very friendly nature.
